

25X1D0b

Approved For Release 2000/08/21 : CIA-RDP33-02415A000400070003-6

* In addition 4 sets of the older A-19 Navy are being procured for alternative use in situations which do not warrant the risk in using the more up-to-date equipment.

DRAFT
2 November 1962
H. Scoville

File: DD/R

MEMORANDUM FOR: Chairman, JCS

SUBJECT : ECM in U-2 Aircraft

REFERENCE : Memorandum for DCI from C/JCS, dated 30 October 1962, same subject

1. At the present time in accordance with the program developed by the DNRO the Agency is planning to install the following equipment in *all Agency* its 5 U-2C's and 2 of the SAC U-2E's ~~3~~

25X1D0b

2. Release of this equipment for installation in the U-2 aircraft

Approved For Release 2000/08/21 : CIA-RDP33-02415A000400070003-6

25X1A9a

that the installation of this equipment was discussed with you by [REDACTED] on 31 October, and you concurred in this installation with the proviso that you would be consulted prior to its operational use.

3. I fully understand the sensitivity involved in the use of advanced ECM equipment and agree that you ^{will} ~~should~~ be consulted prior to any operational use. I believe that this might best be effected by indicating a desire to ^{employ} ~~include~~ such equipment at the time that approval for a given operational flight is requested from the Special Group.
